Novel Coronavirus

Dear Parents/Carers

You may be aware of the recent strain of Novel Coronavirus – 2019-nCov. This new virus was first identified in Wuhan, China in January this year. Please find attached a fact sheet issued by Queensland Health.

If your family has recently visited or had links to Wuhan or the Province of Hubei within China, please contact our First Aid Officer, Sarah Wilson. The College would ask that you monitor your children carefully for symptoms as outlined on the fact sheet and if they show any of these symptoms, please keep them at home until you have consulted a GP.

If the College receives any further advice from Queensland Health, we will pass this on to families directly.
